Hey THIRD CRADERS!

How's it going? I miss you! And I hope you are hanging in there with your new routine, whatever that may look like for you.

Did you have time to listen to a song today? What about at least once this week? Did you hear music in a video game or YouTube video you were watching? Maybe on the radio?

Whatever your day looks like, I hope there is a moment of music in it! And if there isn't, that is okay too.

This song always puts a smile on my face. Maybe it'll put a smile on yours:

Did you know...

We now have a Lena Music website! I will be posting online activities and fun brain breaks for you there. None of this is required, I just hope to post things that you will hopefully enjoy doing.

Please check out our website at:

RECORDER WORD SEARCH

I miss playing recorder with you! Especially playing our Poison Recorder Rhythm game.

Use the word search below to remember some of the words we associated with recorder. Some of them are parts of the instrument while others are things I said to you over and over again!
